## A Short Visit

Don C. Seitz came to Norway on the forenoon train Saturday from Portland, where he was one of the speakers at the Economic Club banquet at Congress Square hotel. One of the things he told the people present was: "People in the shadow of the great cities are apt to look with disparagement upon the papers in the smaller cities. They should consider that the local press is a defense against the outside competition." He then cited instances of papers receiving the support and backing of merchants and of having a great position in the community in spite of outside competition. The citizens should stand back of the paper in their community and be pointed out that the newspaper is what the people want it to be. Mr. Seitz started on his return trip to New York on the afternoon train. He visited several of his Norway friends and went to the Seitz farm for dinner.

**Jewett-Plunkett**  
Dr. Stephen P. Jewett and Elizabeth Plunkett, both of New York City were married Jan. 25, 1917 in that city. Dr. Jewett was a former Norway boy and the son of Mrs. Ella Jewett Cole of this town. The Van Camp Company would not accept the resignation, and sent Mr. Fischer here with authority to offer inducements that might cause Mr. Stone to reconsider. Satisfactory arrangements were made and they left town Wednesday morning. Mrs. Stone will remain in Norway for a while. Carl Stone is known as a specialty chemist, making wholly along experimental and creative lines. He might be termed a chemical Sherlock Holmes, for if the manufactured product falls below the standard there must be a cause, it is his business to locate the trouble. M. therefore is authority to give official statements. William says the January 1917 mean temperature at 7 A. M. was 14.1 degrees. During the same period in 1916 the glass gave a record of 19.4 degrees. Open winter prophets will flourish and County Fair time please note the comparison.

**Veranda Club Notes.**  
One of the more pleasant meetings of the Veranda Club was held with Cassie Starbird at her home on Cottage Street, Thursday evening, Feb. 22d. Regard less of a stormy evening, the attendance was good. The meeting was conducted by the president, Eva L. Fogg. A communication was received from Mrs. Wm. Twombly, who is residing in Harrison, Me., at the present time. This was in reply to a beautiful box of fruit which was given her from the Club. She wishes to announce for the benefit of her town friends that she is well contented and happy. After the meeting adjourned, the hostess, assisted by Virginia Kilgore, served a fine buffet lunch, consisting of sandwiches, assorted cake, cookies, cocoa, confectionery and fruit.

The next meeting will be with Hester Walker Thursday evening, Feb. 8, if pleasant; if stormy, the following evening.

"King of the Forest" is the name of a new fox found in this vicinity and it brings to mind Melodie Dunham's "King of the Forest" which she has through a long and useful life. I mean the name stuck to the dog and not to Bennett.

Carl Stone tells me Van Camp's people have given chemists and a plenty of "vot" for them all. When it became known he was not to return to Indianapolis, but to remain here in Norway, he ran his father's drug store, the firm at a man here to convince him he better return to the Middle West and stay in the employ of the Van Camp Co.

Carl was convinced also his father, Frank P. Stone, that the boy could afford to remain here and retail pills and plasters, so young Stone left for Indianapolis last Wednesday.

Thrift and pay-up week is here. Watch your bank account and pick the ticks from off your sheep.

Abraham Lincoln, George Washington, T. Roosevelt, the water and some others were born this month some years ago.

It is town report printing season. The happiest, gladiest, maddest month of all the New Year. Get your copy in early and write only on one side the sheet.

Frederick Davis is working on a poem for this paper.

Fifty cents pays for a copy of this paper for 17 weeks. You can save 18 cents by having it sent to you direct.

Yes, town reports are printed in the Advertiser office. Send 'em in. But you better write or telephone and see if they can be delivered before town meeting. That would be wise.

Don Seitz has an Indian story on the stocks which is soon to be published. He recently publicly stated in Portland that Norway has had roads and consequently has increased his enemies in this town.

Charles H. Adams is improving and comes up street with the aid of one of my canes. Jack Elliott steps off as spry as a walking stick, while Talbot Mundy swings his cane simply for looks and exercise.

Eighty-six years old and breaking colts and that is Ben. Tucker. He was down here the other morning with a thermometer below zero and with a colt that knew nothing. Both had a circus and got home without injury after mending the sleigh.

"Shine" Briggs tells me Mrs. W. H. Twombly has gone to live with friends in Harrison. Jim Tuell is at West Summerville. Refreshments of harlequin ice cream and fancy crackers were served. Twombly house on Deering street. Such are the changes.

Lewis M. Mann of West Paris has a six weeks' job in a dentist's chair. That is what I was told. It will require six visits of a week apart, hence six weeks. Glad for his sake that it is not to be continuous for that length of time! He was here last Tuesday.

Nash of Maine and others have petitioned the legislature to open up "the bog" to fishing through the ice. He asked me to sign, but as I know nothing about such sport, I refused and thus broke the established rule of signing everything that comes along.

"Every licensed guide who uses a canoe must furnish life preservers for his occupant" is suggested by E. A. Green of Norway and Sugar Island, Moosehead Lake. A letter has been sent Commissioner H. B. Austin, suggesting such a law. Safety first is a good motto.

## PROFIT BY THIS

Don't Waste Another Day.

When you are worried by backache; By lameness and urinary disorders— Don't experiment with an untried medicine.

Follow Norway people's example.

Use Doan's Kidney Pills.

Here's Norway testimony.

Verify it if you wish:

Mrs. Mary Gammon, 14 Beal St., Norway, says: "I have kept Doan's Kidney Pills on hand for years, in fact, ever since I first took them nearly ten years ago. The symptoms I noticed indicated kidney complaint. There was a dull, heavy ache across the small of my back and often attacks of dizziness came over me. Doan's Kidney Pills, which I got from Frank Kimball's Drug Store, proved very fine in relieving me of these troubles. I take them off and on now as a kidney tonic and couldn't wish for anything better to keep my kidneys in good condition."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Gammon had. Foster-Milburn Co., Props., Buffalo, N. Y.

## IN MEMORY OF OUR BELOVED MOTHER

Sarah Riddle Adams, Who Passed to the Higher Life, January 18th

Loved one, we miss thee from thy home, Thy dear sweet face is true, Thy soft gray hair, thy slender form, Thy kind eyes, thy gentle smile.

When thou first to our home didst come, We children numbered six; And part were daughters, part were sons, And left her little flock to mourn.

Our mother dear had passed beyond, In life's sweet summer days, And left her little flock to mourn, And marvel at God's ways.

Thou tookst the heavy burden up, With stout heart, true and brave; To fill with "all good things," each cup, Thy best to us thou gave.

The years passed on in happy line, While Jesus from his throne, Saw fit to bless this life of thine, With children of thine own.

Five daughters thus were given thee, To cherish love and gladness; With tender touch and gentle speech, And seldom didst thou chide.

One maiden bids us use the rod, But thou didst choose that other Which bids us rule the home with love, Elsewhere.

The years sped on and all too fast Our lives, with thine, now done, Thine span, when called to Him at last, Had number sixty-one.

Thus early thou wert called away, While life still held much joy; While thou wert still so true, Thy dear hands to employ.

In our loved home are many things, Wrought by thy busy hand, We treasure these for one who sings, With that fair Angel band.

Thy cherished head now wears a crown, And thou with Jesus art true; Thy gentle eyes on us beam down, With old-time love and care.

Dear one, we are thees in our home, Thy kind, sweet face so true; Thy silver hair, thy tender form, Thine eyes like Heaven's blue.

Celebrated Eighty-Eighth Birthday

Nine children with their families, representing four generations, made up a happy gathering Thursday evening, Jan. 25, the occasion being the 88th birthday anniversary of Mrs. Clara A. Hayden.

For a long time the family have made this one of the most joyous celebrations, but this was the first year in twenty that they have all been permitted to meet—an unbroken circle.

During the forenoon the time was given over to conversation largely of a reminiscent nature and at noon a beautiful dinner was served, consisting of chicken, accompanied by the usual fixings. A large birthday cake graced the table and was so cut that each guest received a generous piece. Beautiful roses, carnations and sweet peas decorated the table.

Mrs. Hayden is proud of the fact that she prepared the dinner and made the cake.

Many gifts were received which included money and post card greetings from friends in Arizona, New Hampshire, New York, Indiana and many other states, all offering congratulations for this long span of years, and wishes for the continuance of good health and activity.

Among those present beside Mrs. Hayden were Mrs. Emma J. Chaffin, Dr. and Mrs. Fred B. Drake of Norway, Harry Hayden of North Buckfield, John Hayden of Bradford, Mass. and his daughter, Mrs. Clarence Morton and two sons of South Paris; Mr. and Mrs. Eugene F. Hayden and daughter Madeline of Norway; Mr. and Mrs. Samuel H. Hayden and daughter Caroline of Haverhill, Mass.; Mr. and Mrs. Frank Knight and children Helen, Mary and George of Manchester-by-the-Sea, Mass.; Dr. Frank Hayden of Portland, and Mrs. Caroline Winchester of Manchester, Mass.

Several group photographs were taken during the day, among them were the "Four Generation Group" including Mrs. Clara Hayden, her son John, his daughter, Mrs. Morton, and her son Paul. A picture of the mother surrounded by the nine children was secured, finally the family party including twenty-two were photographed.

Mrs. Clara Hayden was born on a farm in the upper part of the town Jan. 25, 1829, the daughter of Baker and Rebekah (Stevens) Ames, and granddaughter of Samuel Ames, a Revolutionary soldier and the first to occupy a frame dwelling where the Norway village stands. Her parents came to the mill settlement when she was but a few weeks old, and occupied the small house that is now Mrs. Sarah Cole's property on the mill pond shore close to the public boat landing.

Events that transpired 84 years ago are as clear to her mind as though they were but happenings of yesterday. She remembers clearly the death and funeral services of Capt. John Rust who occupied the corner stand, now the Merriam residence, she being four years old. The building of the well known "mill house" was a public event, this was clearly impressed on her mind, being seven years of age. The present house near C. B. Cummings & Sons' Co. saw mill practically marks the site of her grandfather's first small frame building, although the original got a little nearer the watering fountain and main road.

In childhood, Norway village was divided in two settlements, the upper Ames mill portion having the decided advantage over the lower. At that time, the latter day "Ordway Grove" was a magnificent growth of large, stately pines, being the pride of the Ames family. In those days Baker Ames cleaned out the underbrush and opened a public way through this yard. This spot soon became a favorite picnic ground and lovers retreated remaining until that portion of the Ames estate passed to others, and the name changed on the suggestion of Mrs. Hayden, to "Ordway Grove."

When eighteen years old, Norway was named to the extent of securing a high school. This building was moved on the former "Mill" lot, corner Paris and Main streets and repaired as any weather

beaten slaughter house might, for that was the origin of the first big institute of learning in town. About 1849 a new building replaced this makeshift.

Nov. 25, 1847 she married John J. Hayden in Boston, but returned to Norway two years later owing to her husband's California gold fever, that changed him into a "forty-niner." During this visit under the paternal roof, she formed the acquaintance of the two twin Cobb boys who boarded upstairs with the Coles nearby and attended Norway Academy. As Mrs. Hayden expressed it they were "cut ups" and just brimming over with good natured fun. One of the boys passed away, but Darus Cobb, a sculptor of note, survives and is a firm friend of the family.

Mrs. Hayden is wonderfully preserved physically and mentally, she is of slight build, quick and active, indicating an alert mind. Interest in everyday happenings is intense, as shown by her intimate magazine knowledge of Billy Sunday and his methods. She proudly mentions the fact of her happy boys and girls, scarcely one can duplicate her memory feats. Twenty-four living grandchildren are in the family, they in turn have presented her eleven great grandchildren. Mrs. Hayden jokingly remarked, "The oldest great grandchild is twenty-one, now there is still hopes of me gaining another 'great' on my list of titles." So far as can be learned, she is the oldest native born person in town, her parents were also natives of Norway.

### Raises Hens for Profit

Mrs. H. M. Jackson of Millettsville is the proud owner of a very nice flock of S. C. R. L. Red hens from which she is gathering lots of eggs. She has shipped case after case of eggs since October 1 from her large flock of pullets. She has bred this kind for several years with great care for the best, both in shape, size and good laying qualities and has a flock which it would be hard to beat. Mrs. Jackson takes the best of care of them and is a thorough poultry woman in every way, getting a great number of eggs and raising fancy pullets from which she received the highest market price, as they are great layers of large brown eggs as well as all the other good points which they have. Mrs. Jackson has also received a great many prizes at the poultry shows, but did not compete this year as she had not the time to spare to carry her hens, her time being taken with other things more profitable to her in the poultry line. She is planning to set her several incubators, this spring and hatch a number of hundred chicks from which she intends to save a few hundred pullets for layers another year, for those egg cases must not stand idle, but as their duty members on the way from her hen house to Boston carrying eggs.

Billy Sunday in Congregational Church

"Billy Sunday in Action" was the subject of an interesting sermon-lecture given in the Norway Congregational church Sunday evening by Rev. Andrew T. McWhorter of South Paris.

The speaker opened with a general description of the tabernacle construction, which included the sawdust trail, ventilating and heating devices, and method of handling "trail hitters." The emergency hospital and adjoining "tabernacle restaurant" were briefly mentioned.

Billy Sunday from personal observation at five meetings, proved an interesting character study of the great evangelist. His strong and weak physical points were freely discussed and the mental make up clearly shown. Characteristic utterances with thrilling climaxes gathered from the meetings that Mr. McWhorter attended, proved instructive and helpful, being free from sensationalism or over-worked mannerism.

In closing, prominent workers connected with the organization were mentioned, with many of their pithy sayings. "Rody" as the diplomat and singer impressed the speaker greatly. There was a good attendance.

### Norway Store Wine Prize

F. P. Stone has been awarded 5th prize for the Eveready Flashlight display exhibited in the Stone Drug Store window during October 1916.

This Dealers Window Contest extended over the United States and brought out displays by the thousand as indicated in a paragraph of the letter received. "We congratulate you upon your success in carrying away this prize. We have rarely seen a contest more difficult to judge, as so large a number of dealers entered their windows and took such extraordinary pains in the arrangement and design."

G. Ralph Harriman who arranged the prize display is justly proud of his efforts. Even a "look in" under such keen conditions over a wide territory, should be considered of sufficient importance to grow the "chesty" feeling. A ten dollar prize check is worth striving after, but the honor is probably worth more.

### LOVELL

Harold Watson is expected home from the hospital this week.

Mrs. A. A. Stearns has been visiting friends in Fryeburg.

Seymore Farrington is ill with pneumonia.

Henry McAllister has gone to Memorial Hospital at Conway for treatment.

Mrs. Honor Bartlett of Stoneham is visiting her sister, Mrs. Addie McAllister.

Jennie McAllister remains about the same.

### MILK PRODUCERS VS. CONSUMERS

Written by George W. Richardson of Greenwood, a Progressive Farmer and an Interested Granger.

Under date of Jan. 12, in the "Every day local pick ups" I notice our esteemed friend, the editor, spreads it on to the proposed milk producers' association just a little bit thick, as it looks to me, being a producer and interested in the welfare of the business. What he terms to be a smooth running "milk and water organization," is intended to be nothing more or less than a combination of the milk producers in an effort to narrow up the gap between the price that the producer receives and the price the consumer pays for his milk. In other words we wish to work out a plan whereby the producer will get a fair share of the money that the consumer pays for his milk.

We are ready to admit that the plan is to cooperate, and firmly believe that it will be harmless and, will result in much good, as far as the producer and consumer are concerned. We think that the farmer has a perfect right to organize for his own protection, which is the very reason for the existence of the Farmers' Union which has lived and grown to a good sized organization in the past two years, even if state aid was withdrawn by the commissioner of agriculture, and we think that the milk producers' organization can, and will, live and prosper to the great advantage of the farmer without aid from the state treasury. At any rate, there seems to be at this time a goodly number that are willing to make a try with that end in view. There is one thing that I don't quite understand—Why is it that as soon as the farmers start an organization there is such an amount of criticism and "Ta-ra!" thrown at it from most all other sources? Is it because other industries and professions have an idea that the poor farmer is not able to manage his affairs? I will admit that he has allowed others to manage for him altogether too long for his own good and he is about to begin to begin to realize, that he should have a voice in the matter of what he should receive for what he produces, instead of allowing the middle man to regulate the price of what he has to sell, as well as for what he must buy.

The writer of the article quotes prices of the time he has been in Norway from 4 to 9 cents per quart. Now to go back 20 years, I will venture the statement that when everything connected with the business is considered, there was as much profit for the producer at 4 cents as there is to-day when the consumer pays 9 cents. Any one who doubts this statement, wants to figure the profit of the producer who ships his milk to Portland or Auburn as the case may be. Cows costing \$75.00 each and fed on grain bought of the local dealer that costs 44 or 45 dollars a ton, his help if he hires any, costs around \$35 per month and if he does his work himself, he should be paid nearly as much as the hired man. His milk is carried 4 or 5 miles and delivered at the train or factory, as the case may be, and if delivered to the train he pays the railroad 8 or 10 cents per 5 gallon can for transportation and he gets about 5 cents per quart delivered.

Now, do you, Mr. Consumer, think the producer is getting his share of the 9 cents that you pay the dealer? I don't, and the question we are trying to solve is, how to better the present conditions. We are aware that the price has kept advancing to the consumer, but the man that was producing the goods was expected to be content with the same old price until at last, he has come to realize that he is not getting a new dollar for an old one and says to himself, "I must get more for my milk or go out of business." Now I would ask any fair minded person if the milk producers of New England have sufficient reason to be "happy or satisfied."

Again when you compare what may happen if the milk producers combine to what has happened in the combination of the International paper company, it is not fair to the farmer from the viewpoint of his pocket. Finally, I regard the proposed scheme to unite the milk producers of New England as perfectly just and honorable formed for the purpose of protecting the Dairy interest in our state, and furthermore, I firmly believe that unless some such movement is carried out, that the number of cows kept for Dairy purposes will certainly be growing smaller and smaller each year, for the very good reason that they cannot be maintained year after year at a loss to the owners in dollars and cents.

### WALKING ON THE SAND

'Twas early in the month of June,  
The birds they sang, sweet flowers bloomed;  
My mind it being on pleasure bent,  
A canoeing on the lake I went.

The lilies bowed to me their head  
While o'er the silvery waters sped,  
I glided o'er the crystal lake and  
And watched to see the pickers wake.  
The tortoise clinging to a log,  
The rushes growing in the bog,  
Over the side my hand did trail  
The water dripping on the rail.

With steady strokes my paddle swings  
While in the trees the loons sing,  
And there a maid with tender grace  
And dimples in her smiling face,  
'Twas there she walked upon the shore,  
A maiden fair I'll ne'er see more;  
She spoke and said, this gentle maid,  
'At canoeing I am not afraid.'

And to the shore I then drew near,  
Her sweet voice ringing in my ear,  
And then to her my hand did reach,  
She stood there smiling on the beach.  
Then canoeing together we did go,  
Ah, 'twas the days of long ago!  
The sun shone down upon our heads,  
'I'm very thirsty this morn' said.

So soon we stood on pebbled sand  
My canoe pulled high upon the land,  
And to this maid I then drew near,  
Some water from a crystal spring.

'Twas there beneath the pine tree shade,  
I sat and talked with this gentle maid,  
Beneath the trees we drank our fill,  
The lambs were bleating on the hill.

We carved our names upon an oak,  
The blue bird sang his sweetest notes,  
And like the water before the bow,  
Our parting words I hear them now.  
Again I come this night in June,  
The wild flowers blossom o'er her tomb,  
I think of her, my fairest Flo,  
And of the days of long ago.

The sun gone down behind the hills,  
There at the spring I linger still,  
'I'm sure I never shall forget,'  
Until life's sun for me has set.

Until my locks are snowy white,  
Then death alone can end my blight,  
When my canoe shall touch the shore,  
Where sorrow and sadness are no more.  
Where sparkling waters and lands sublime  
And where the sun forever shines,  
Where we shall meet in death shall part,  
But joy shall find each aching heart.

How few while gliding down the years,  
To cheer us through the vale of tears  
To meet us with extended hand,  
Like her, while walking on the sand.

### OTISFIELD

Samuel T. Reed

Samuel T. Reed a life long resident of Otisfield passed away on Monday, Jan. 15, at the age of seventy-eight years.

He had been in failing health for a number of years. The immediate cause of his death was a shock from which he never rallied.

He has always lived at the same place as his ancestors on Bell Hill until he with his wife went to live with their daughter, Mrs. W. P. Linnell, where in their declining years they have been tenderly cared for. He leaves five children, — Winfield S. Reed of Otisfield, Mrs. W. P. Linnell of Otisfield, George W. Reed of Haverhill, Mass., S. T. Reed of Casco, and Mrs. Bunnell Cobb of Westbrook.

The funeral services were at the Free Baptist church, Thursday forenoon, attended by Rev. Harold Faulkingham, pastor of the Advent church of Oxford. Singing was furnished by Vernon, Vivian and Alice Townsend and Ethel Scribner. Two Selections were sung by the quartet, "There'll be no dark valley", and "Does Jesus care". A solo was sung, "No burdens yonder" by Ethel Scribner. There were beautiful floral tributes. A handsome pillow by the children and other tributes by friends and neighbors. Interment was at Elmwood cemetery.

## RESOLUTIONS OF SYMPATHY.

Death having entered our midst and borne to the Great Beyond, our beloved sister, Estella G. Hobson, we, the members of Evergreen Rebekah Lodge, No. 15, I. O. O. F., do hereby extend to her bereaved son and family our heartfelt sympathy and love. We commend them to the care and protection of the Heavenly Father in their hour of trial. He will comfort them as He has promised to uphold the heart stricken and sorrowing. We miss thee, dear sister, our ranks are broken, but our loss is thy gain. May we meet at Heaven's portal, where joy soothes our greatest pain. She passed to the other shore on January 12th, 1917. She was a Past Noble Grand and a member of the Rebekah Lodge of Maine. She had served as Warden of the degree staff for twenty years. She was a regular attendant at lodge meetings whenever able to do so and was always ready to lend a helping hand. That we miss her kindly face goes without saying. But we know she is at rest and has gone to meet her husband who preceded her thirty-four years ago last month. Therefore, be it resolved, that we present a copy of these resolutions to the family, spread a copy in the records of the Lodge, and have a copy published in the Norway Advertiser; also draper our charter for a period of thirty days.

They went to housekeeping at once in a cozy furnished home in the Randall O. Porter house, Water street.

## J. Leonard Gammon

J. Leonard Gammon died in his home on Hazen street of apoplexy Monday afternoon, January 29, being 71 years old. He was born in Lovell August 10, 1845 and the son of Hasty and Statira (Cone) Gammon. His life had always been passed on the farm in that town until last November, when the family moved to Norway.

A service was held in his late home Wednesday morning, conducted by Rev. H. L. Nichols, after which the remains were taken to North Lovell where the funeral was held under the direction of the I. O. O. F. of which he was a member. A widow, one daughter and a brother, Alba Gammon, survive.

## Of Great Interest to Norway

Representative A. R. Clark of Harrison with Mr. Brett of Otisfield, Commissioner of Agriculture, J. A. Roberts of Norway and Mr. Cummings of Hebron, told of the needs of the \$5000 asked for the reconstruction and repair of the Twin Bridge road in Otisfield. It is in bad shape and town can't fix it by usual road methods. Town has 800 people, 171 polls taxed, and a valuation of \$274,000, with a 25 mill tax rate in 1916.

This is one of our principal highways and because of its condition is passed over with fear and trembling. Many last year went longer distances around to avoid it.

Harry Millett has a valuable dog. It came by express from Connecticut and is of the female gender and of the English Bull variety. The dog has taken blue ribbons, has cost a thousand dollars and has a pedigree. Nothing like it in Upper Millettville.

Sarah Swett returned Tuesday from Boston, where she has been for treatment.

Oscar Swift of West Sumner was in town on business Saturday. It is reported the Norway branch train was lost during several hours Tuesday somewhere between Portland and its home, all because of an unforeseen combination of natural causes. Because of a wreck West, that held up the passenger, from Island Pond, the "dummy" was ordered to pick up the Norway and South Paris business and proceed to Portland. They reached the city safely and started homeward. In the meantime a freight "kicked up" at Bangor and the Norway limited couldn't pass, so was held back until a hole could be made through the mix-up. They reached South Paris late in the evening. This complication of trouble started the last ad.

Two pieces from Shaw's Orchestra will furnish music for the Buckfield High School play "The Country Minister," to be given here this week.

Mrs. E. N. Anderson entertained the Economical Whist Club at her home on Hillsdale Avenue, Wednesday afternoon. Three tables were in play and small dainties baskets were given as favors.

Joe Dubey, the man with the electric thawer, has had no catch the past two weeks. Many years have passed since water pipes plugged so easily and completely. The usual hot water or torch treatment has little effect on obstinate cases, but connecting the "juice" will usually fetch it.

Mrs. Annie Harris is ill at the home of her daughter, Mrs. Clinton S. Masseck. The Unbagog Camp Fire Girls will hold their monthly ceremonial meeting at the Green Dragon camp in Oxford. Ruth Smith will be the hostess. The Pennessseavasee camp will be invited. Each member will take a lunch and at the close of school will take the hike of three miles. After holding their meeting and will snow shoe home by moonlight.

Services at the Congregational church Sunday, will be as follows: Morning worship, 10:40; sermon theme, "For What Do You Live?" Sunday School at 12, a large, interesting school that you ought to attend. The popular evening service at 7 P. M., theme, "How to begin and live the Christian life." Two new signs "Public Library" have been placed on the tree in front of the entrance of the library, one on each side of the tree, in plain view up and down the street. A stranger could not help looking the library now.

Mr. and Mrs. Eugene F. Smith will entertain all the past officers of Oxford Chapter O. E. S. and the officers for 1917 at their home on Bridge street, Friday evening, Feb. 2.

## CHILD SAVED FROM WORMS

A mother of six children writes: "My baby was very sick and a friend of mine suggested trying Dr. True's Worm Elixir. Now I have six children and as never without Dr. True's Elixir, the Family Laxative and Worm Expeller in my house. Mrs. B. N. Gilie, West Newbury, Mass."

Signs of worms are: De-Trade Mark 1851 ranged stomach, swollen upper lip, sour stomach, offensive breath, hard and full belly with occasional gripings and pains about the navel, pale face of leaden tint, eyes heavy and dull, whitening of the whites of the nose, itching of the rectum, short dry cough, grinding of the teeth, little red points sticking out on tongue, starting during sleep, slow fever. If your child shows any of these symptoms, start giving Dr. True's Elixir at once. At all dealers—35c, 50c and \$1.00. Write to Dr. J. F. True Co., Auburn, Maine.

## Harry A. Packard Visits Sub-Treasury

"I let a million dollars slip through my fingers today and I am feeling mighty poor! A million! But then that's nothing for a few minutes later I was handed four million dollars in bills of \$1,000, \$5,000 and \$10,000 denominations. The 'yellow backs' made a pile about 10 inches high. One could conceal them under his overcoat, though I fear he would be questioned a bit if he tried to spend one of the \$10,000 bills in a ten-cent store."

I was so provoked to think I did not keep the million dollars I had in my hands, that I took \$20,000 in 'yellow backs' of \$10 and \$20 denomination and cut them into two pieces—yes actually destroyed them so they will never be placed in circulation again.

"Oh, yes, I forgot to add that all this happened in the sub-treasury in the United States post office building in Boston! 'The guide through this 'rich storehouse' started us in easily when he began to show us the money. First the washing machine where the soiled bills are washed and ironed and come fresh, stiff and new appearing. They showed us a few cart loads of pennies and the cages where men counted pennies in a machine and picked out the worn, 'plugged' and otherwise damaged coins. At another place the same process was done with five cent pieces. They had buffed, cleaned by the steel and counted them into cloth sacks, each containing \$200 worth. The dimes, the halves, etc., are all handled in similar machines. The halves are put up in sacks of \$50, \$100, \$200, \$500 and even \$1,000."

"We soon got tired of little amounts like one thousand dollars and were then shown the vault containing 1,300,000 'cart wheels' (silver dollars). These are stored away to make good the silver certificates which have been issued. These cart wheels weigh something like 78,000 pounds or nearly 40 tons. 'And then the gold vault! The gold coins are placed here to make good and redeem the paper gold certificates in circulation. Stowed away in the vault was from \$18,000,000 to \$19,000,000 in yellow shining gold."

"The gold balance of the sub-treasury was twenty-four million the day we were there."

Wrestling for Base Ball  
Some great stunts are a sure thing when the Base Ball Benefit is pulled off in Norway Opera House on the evening of February 8.

Scientific wrestling has never been put to the people of Norway so this evening event is arousing no little curiosity and interest. Promoters, L. M. Carroll and Tom Raymond have the bearings well oiled so arrangements are being perfected for a regulation exhibition which is expected to popularize the sport in this vicinity. The show will open with the Kankee Rollins and Homer Truman on the mat. When a pair of shoulders touch the canvas, "Cyclone" Gregg and Ray Russell of South Paris will have a friendly clinch, followed by Raymond Evers and Arthur Desouteau, both well known Norway basket ball stars of the light weight class. The bill will close with a performance and continuous, until a decision can be given to the tune of the best 2 out of 3 falls.

A regulation mat sixteen feet square, will be raised some two feet from the center of the Opera House floor, with plenty of "padding" side seats and excellent vantage points in the balcony. Probably a referee from Lewiston will handle the cases. Two well known local men, whom we will call, for various reasons, the "great unknowns", may do a specialty between the acts, the turn being the famous "French Wrazzel."

Electric Car Train Service  
The final car arrangements have been made and the following street car time table will hold good until further notice: Leave head of Main street to connect with the car at South Paris for Portland 8:25 A. M.; 5:30 P. M.; for Berlin 9:25 A. M.; 5:30 P. M.

Crayon Artist Coming  
On next Wednesday evening, Feb. 7, William Croton, the wonderful impersonator, will be at the Congregational church and provide a drawing and varied program which will include a model, fabric pictures, crayon sketches and cartoons, costumed characterizations, and impersonations of noted men. This entertainment is sure to please and will be something after the work of the crayon artist at last summer's chautauqua.

This entertainment is one of the Lyceum course and the required amount has been received for the entertainments and all that is made from now on go into the Circle treasury.

Where this artist has entertained he has always pleased and has drawn large audiences.

Mrs. Georgia A. Curtis, wife of William E. Curtis of Winter street, Norway, passed away Wednesday afternoon from a rupture of a shock, being 66 years old. She was the daughter of Moses and Hulda (Sweet) Gage, and was born in Paris, May 30, 1851, where she lived the greater part of her life.

About twenty-five years ago she married Mr. Curtis and lived at North Paris, coming to Norway about eleven years ago to the home on Winter street. She was an active member of the Norway Grange. She is survived by a husband, Grange. She is survived by a husband, Grange. She is survived by a husband, Grange.

Services will be held in her late home Friday at 2:30 in the afternoon, conducted by Rev. C. G. Miller of South Paris. Burial in Pine Grove Cemetery.

Harold Jordan of the Rice Auditing Co. of Portland is installing a special cost and bookkeeping system in the W. F. Tubbs Snowshoe Factory. Raymond Evers is in the office learning the new method from headquarters.

Eli Perce, who lives on Fore street this winter, walked through the village Thursday morning battling against the falling snow. Guess I shall get drifted under before I can fetch up at the road," was his only comment. It requires courage to start a fifteen mile hike in the face of an old fashioned winter.

A Pathe moving picture operator caned the W. F. Tubbs Snowshoe industry on three hundred odd feet of film Wednesday afternoon. Many ordinary photographs were also taken for magazine illustrating.

BROWN, BUCK & CO.

NORWAY,

MAINE.

The Sunday evening service at the Congregational church is proving one of the most interesting features. For the past three services the attendance ranged around the 200 mark, and much enthusiasm has been expressed by the people attending. The service has been conducted in a popular fashion, and the preaching has been vital. The old Gospel has been attractively presented in a new garb.

Robert J. Bruce the popular pastor of the church, announces that the program for the balance of the winter offers many more good things for those interested. The jolly party occupying the Swan cottage at Lake Pennessseavasee for the week-end included: Asa J. Richardson, Anderson, Phineas Curtis, Arthur Gammon, Shirley Milliken and George Hutchinson. Sunday Charles Pike and Walter C. Smith joined them, making the trip by automobile, traversing almost the entire length of the lake.

## ALBANY

The next Ladies' Circle will be held Friday evening, Feb. 2. Dr. Charles Hutchinson of Portland is in the Maine General Hospital at Portland and for treatment has been operated on for a tumor. He was formerly an Albany boy and the son of Rawson Hutchinson, who once lived near the Hutchinson Pond in South Albany. Dr. Hutchinson was once well known at North Waterford as this was the first place where he practiced medicine, going from there to Portland.

Anna Cummings who has been in the hospital about five weeks, is gaining slowly and has got out of the hospital and is stopping with her sister, Mrs. S. J. Gould of Lewiston.

Two feet of snow on a level in the woods. It has been hard sledding for the last week. Winter is half gone, but the timber is not half hauled to the landing yet.

Alta Cummings has closed her school at North Albany.

Archie Bass and the two Allen boys have gone to Portland to work. Archie cut his foot badly while at work in the woods at Newry.

Woodson Scribner is cutting some wood for Abel Andrews on the Archie Cole lot.

Herbert Bean wants to sell or rent his store. It is hoped that some good man will come and buy his store and goods for we need a store here at the corner of Main and Fore streets. It is six miles to North Waterford and eight miles to Bethel. We shall all hate to have Mr. Bean and family move away. His two oldest children are about fitted for college and if he moves to Lewiston, he could send them to college and he could board them at home cheaper than to hire their board.

Fifty-one in the Freshman class at the Norway High school.

**D**ON'T carry around a great amount of currency. If you do you are beset by two great evils. One is the temptation to spend readily. A man with \$100 in currency in his pocket is freer to spend than the man with little currency. He is more apt to break a ten dollar bill than he is to draw a ten dollar check.

The other evil is the bait offered to thieves. A man who is known to carry a large sum of money in his possession never can tell when he will be set upon by a highwayman. The wealthiest men in the country seldom carry large amounts of cash. When you accumulate a goodly amount of currency deposit it in the bank at once.

## Good Returns from "Fed-Up"

The drama entitled "Fed-Up" written by the local author, Hugh Pendexter of Norway, was finely presented at the Norway Opera House, Friday evening, Jan. 26th. Mr. Pendexter wrote the play and staged it for the benefit of the gymnasium which is in the process of building at the High School lot.

There was a good sized crowd in attendance who appreciated the effort of Mr. Pendexter and the members of the cast who have given liberally of their time to make the play the success that it was.

The opening scene was staged as a New York police court, where a "sunrise court" was in process. Here was where Prof. James Sanvix, Hugh Pendexter, Jr., was brought in having met with an automobile accident on his wedding day, in which a policeman and others were involved. Another poor unfortunate, Doc Biggle, alias Fettleboom, the king of crooks, Hugh Pendexter, was rounded up, and was wanted for the larceny of a string of pearls. Biggle induced the much lamenting Stanvix to exchange coats and to pass under another name. The tangle began and the magistrate, Paul Hosmer, demanded order in court and discharged Stanvix.

The clerk of court was David Klein and the court attendants were Merle Russell and Paul Hosmer. It was during the gathering of court that the clerk of courts made love to Winona Wunk, the reporter for the "Daily Sob," Virginia Mixer, but the promise of a little farm was not alluring to her, but the real one, the detective, Fred Farrel, Harold Anderson, succeeded in winning her heart.

The second scene was in "Rose Lodge" the home of Stanvix, who had married Edna Fenton, Ruth C. Akers. It was there that awful things happened, the offensive order of the concealed strip-jar, the owner of the same appeared twice in different personages, the crook demanded money, while the real Bob Covers, Merle Russell, wanted only a match to find the leak in a gasoline tank, which in the time blew up. Consternation reigned and a deputy, as well as Stanvix's mother-in-law, Katherine Jones, blew in. Arrests were made and the young wife was nearly in despair over having been so deceived by her husband and "all on her honeymoon."

The last scene was in the Stanvix's city apartments. His mother-in-law had been released, having been arrested by mistake as the crook in disguise and at this point she deemed it necessary for her daughter to leave her husband until he could prove he was not guilty of any crime. "All are detectives, the gardener is a detective, his wife, too, and even the ice man."

It was here the crook again appeared and demanded money and on the promise that he would depart, Stanvix opened his safe and the crook with revolver in hand, demanded it all; by a sudden move Stanvix drew his revolver and frightened the crook into submission. He then presented him some money and with the accurate strip-jar, he departed. As it turned out the mother-in-law owned up her relationship to Doc Biggle, the crook, and she and her daughter humbly begged his forgiveness.

The parts were all well taken and presented in a praiseworthy manner by the actors. Every the curtain and between acts music was furnished by Mrs. Fred Moore, piano; Shirley Milliken, violin, and Mr. Edwards of Oxford, cornet.

Mr. Pendexter has handed in the following statement, so that all interested in the school and scholars may understand just how the profits were obtained:

Neil Burnell kindly gave his services back the stage, making up the cast. Probably there is none in town who more thoroughly understands the make-up requirements of the local stage than does Mr. Burnell, an effect that will "carry" on one stage won't on another. Brown & Buck Co. furnished costumes and furnishings and invited Mr. Pendexter to "help himself" from the store.

The Atherton Company donated and delivered the furniture used in the third act, while the Municipal court room was requisitioned upon for the first act setting. Back of the whole enterprise was the efficient stage managing of Harold A. Anderson, and without whose valuable assistance Mr. Pendexter says he could not have presented the piece. Mr. Pendexter and his cast are happy over the financial results as are the scholars. "It's a great satisfaction to start out to do something and do it," was the way Mr. Pendexter expressed himself.

The school was also indebted to Fred Cummings for the work in the settings of the second act of arranging the hedges, rose bushes, etc.

## PLEASE FEED THE BIRDS

The deep snow covers their usual food insects' eggs and larvae and the seeds

of weeds—and they will starve unless we feed them. Give them "Hayseed," chaff from the barn floor, crumbs, scraps of meat, bones and suet; anything eatable and they will repay you a thousand fold by their work in the garden and orchard all the spring. Do it now. Fasten the meat scraps and suet securely to the trees and see how eagerly the chickens and woodpeckers go to it. Tread the snow down hard and scatter the hayseed and crumbs there, or put the food on a board or box and watch the juncos and tree sparrows fill up. Put out chaff and grain for the quail and meadowlarks in the pasture. They work for us all Summer long, eating insects. Keep it up while the snow lasts. It is not only a fine philanthropy—but a paying investment for each one of us. This has been the custom of the Audubon Societies in past years and it has everywhere met with approbation and cooperation. In that time there has been a noticeable increase in the number of song and insectivorous birds in the country.
